HAZARDOUS MATERIALS

Friable and non-friable asbestos containing materials will be maintained in good condition and appropriate precautions will be followed when the material is disturbed. If there is a need to replace asbestos it will be replaced with non-asbestos based materials. Each school building will maintain a copy of the asbestos management plan.

The school district will appoint and train appropriate employees as necessary. A trained school employee shall visually inspect all areas identified in the management plan every six months and complete the required records and reports. An accredited inspector shall visually inspect all areas identified in the management plan every three years and complete the required records and reports.
